Read instructions carefully before use

1. Place the appliance on flat level ground.
2. **If an extension lead is being used with this appliance make sure that it is fully unwound.**
3. Plug the appliance into a 13 amp electricity supply.
4. Open the door the light will automatically illuminate, and a "0" will appear on the LED screen (**FIG 1**).
5. Place the required product into the oven compartment, and close the door. The light will go out.
6. Select the required power level by pressing the power level selector pad (**FIG 2**) once. 1 will appear on the led screen flashing.
7. To select **HIGH** power press the selector pad (**FIG 2**) once **||||** will appear in the led screen. For **MEDIUM** twice and **|||** will appear for **DEFROST** three times and **|** will appear.
8. To set the required time (**Max 15 minutes on High and Low 30 minutes on Defrost**) press the number pads 1-0 (**FIG 3**) for example for 10 Minutes press 1 followed by three 0 this will be indicated on the led screen as 10 00.
9. Press the start pad (**FIG 4**) the oven lamp will turn on and the heating will begin. The power indicator will start to blink and the timer will count down.
10. When all time expires, beep tone will sound and heating will stop.
11. For a further 10 minute open and close the door and push the start pad (**FIG 4**).

SAFETY

1. Under no circumstances should metal objects be placed inside the oven compartment.
2. You must check that any containers used are suitable for microwave ovens.
3. The product should be left to stand for approximately 2 minutes before consumption.

In the event of a breakdown or unsatisfactory working of hired equipment Rayners Catering Hired Ltd should be notified of the fault. No attempt should be made to repair the item unless permission has been granted by Rayners Catering Hire to do so. No responsibility will be accepted by Rayners Catering Hire for any accident or damage resulting from the use of equipment hired whatever the cause.
